**Is your blog stuck all by itself in the wastelands of the web?
No visitors equals no profits.**

**Discover how I went from zero visitors
on a brand new blog to 50 visitors a day
in less than 30 days...**

**Without using a mailing list, paid advertising,
or links from my existing blogs**

April 30, 2010

To: Anyone struggling to get visitors to your blog

Dear Friend,

All too often I hear horror stories of people that put all this effort into creating a blog, posting content and the only person that sees it is the person and their family. Sound familiar?

Getting a blog set up can be extremely easy. There are point and click solutions like Blogger or WordPress.com. With my partner we opened our own free blog service, My CC Blog.

You can add a blog to your domain through Fantastico with most cpanel servers in 5 minutes or less. All these things make starting a blog really, really easy.

Once they are set up almost all of them have a WYSIWYG (what you see is what you get) editor that makes it extremely easy to add content. Compared to creating a website creating a blog is super

simple.

All of those things make it so that anyone can create a blog. No hard to learn skills needed.

Now to the part that makes people quit blogging every day - no traffic.

15 Minutes A Day To An Avalanche of Blog Traffic was put together to allow you to have a step by step plan to get more traffic to your blog.

A written and audio plan to start generating you traffic quickly and continuously.

Getting Targeted Traffic

As easy as it is to get a blog up and add content, the blog is worthless if no one reads what you write. You need to get targeted traffic to your blog if you want to make sales.

The thing is you don't need thousands of visitors to make your blog quite profitable. (As long as they are targeted and nothing draws targeted traffic better than blog.)

Why should you listen to me

Besides being an old bald guy, I have been blogging for over four years. I generate traffic to each of my blogs that is targeted and more importantly generate sales for me almost every day.

I have spent the last two years through trial and error discovering which things were worth the effort and which ones were not. Now I have created a step by step system for my set up and see consistent results no matter what niche I am working in.

Quite a few of my blog posts end up on the first page of Google for the product I am promoting and it can happen in as little as two hours from the time I post.

Here is an example of one.

Google instant squeeze page generator Search Advanced Search Preferences

The Old Bald Guy in position 3 is just one of my blogs.

Well, I generate visitors to my blogs to the tune of thousands of visitors a day. But all of these blogs are established and would not prove out the quality of this information for you. After all if you are just starting, showing you stats from blogs that have been going for 3 years or more wouldn't be realistic.

To overcome this I created a brand new blog on December 12, 2007. The first post was made the same day. Now less than a month later this blog is averaging over 50 visitors a day.

To be clear - **This blog is not:**

- **Linked to any of my main blogs**
- Had any paid advertising sent to it
- **Or had people sent there from my email lists**
- Just used the techniques in 15 Minute Blog Traffic

Stats a/o 1/15/08

Is it hard to do?

Absolutely not but it does take a bit of effort. There are a few things you need to set up and do just ONCE. You will need to spend about 3 extra minutes each time you post after that.

Add in a few other free services and another 10 minutes a day and you can add additional traffic bit by

bit.

This will constantly increase the flow of traffic to your blog.

This will take a bit of consistent effort but it will multiply many times over sending you an ongoing stream of traffic.

"Not only the answers"

"Having just started my Blog, I had several questions. Little did I know that I would find not only the answers, but priceless information on how to drive needed traffic to the site."

R. Miller

Why I created it

I help people get their blogs set up and running either through my installation service or one of the courses I sell. The problem was that this addressed the technical side of setting up a blog but my customers asked for ways to get traffic.

Initially this was only going to be for my best customers and for those I offer a personalized coaching course with direct access to me.

A good friend of mine wanted to get his new blog started and suggested that we record it. We walked through everything that I do initially on my new blogs to get the traffic going.

Shortly you'll discover -

- ✓ **The secret source to get Google to index your blog almost immediately.**
- ✓ How to bookmark to multiple sites in 30 seconds.
- ✓ **2 plugins that can increase your search engine rankings immensely**
- ✓ Why your title tag is important
- ✓ **A free tool to save you time with submissions**
- ✓ And much more

By Now You're Probably Wondering:

"How Much Is This Great Information Going To Cost Me?"

The transcript and the audio are just one click away. It is downloaded digitally so you can start generating targeted traffic just minutes from now.

How much do you make from each sale you generate? One product that I posted about pays me \$73.50 for each sale. The initial post sold 3 in the first 2 days and has sold 5 others over the last 6 weeks. Over \$500 from just a single post.

If I only did three of those posts a month it would generate me over a \$1500, Would you pay one month's revenue to get your blog to work like that?

I gave serious thought to selling this for \$47 and it is worth at least that much. I am currently running a test on a brand new blog to prove out exactly what amount of traffic a brand new blog can get and how fast it will ramp up using these techniques. Once that is done I will be raising the price incrementally to just that - \$47. Because I don't have the case study completed yet I am going to initially sell this for just \$27.

"Want more traffic to their blogs"

"I've become quite good at this whole blogging thing and it's now integrated in all the steps in my business plan (with great success).

But I do have a secret weapon... an old bald guy called Mike Paetzold. Mike has taught me everything I know about blogging and I revisit his stuff on and almost daily basis.

15 Minute Blog Traffic is no exception. It's a great hands on package for people that want to know more about blogging and want more traffic to their blogs (don't we all)..

SorenJordansen.com

Why so low

I just launched this product but did not want to wait the 30-60-90 days to get the traffic going and using any of my current blogs would not be ethical. Yes, I could show you great traffic stats but they are all for existing blogs of a year or more in age. Their stats would not be valid for what you can get from a brand new site. I will also need testimonials when I raise the price. Getting this in as many people's hands as possible is important to me.

And there's more...

Sorry, I just had to say that here but after the call I realized that I had talked about an action plan and blog commenting but had left out the way I do that without software. So I created two more reports to help you.

1. A written checklist that you can print out and use as a checklist.
2. A short report on exactly how I find quality blogs to comment on without buying any extra software.

I'll take all the risk.

I am so sure that you will be totally satisfied with this product that if you are not, all you need to do is ask and I'll refund your money no questions asked for 60 days.

That's right. If you don't find this useful you can just request a refund and I'll even let you keep the book and the audio's as a thank you for trying it. It doesn't get any safer than that.

Now I will only be holding to the \$27 price trial for a very short period of time before I raise it to \$47. I take all the risk and you can start generating extra cash from your blog in just minutes.

☐ **Yes, Mike**

I want to take advantage of your special deal and get my copy of

- "15 Minute Blog Traffic " audio
- "15 Minute Blog Traffic" transcript
- Special checklist report
- Special report on commenting

For the low price of ~~\$47~~ **\$27**
(Special Limited Price)

Look at it this way, one sale generated from your blog can easily pay you double what this can cost. You can easily make 10, 20 or more times the small investment through just one blog.

Mike Paetzold

Mike Paetzold

P.S. Seriously, for just ~~\$47~~ \$27 I'll show you how to get your blog to generate targeted visitors for what you have to promote. How can you pass on that?
